Gustavo Ventura Nery Vianna

Software Engineer — Backend, Architecture & Security

Pedro Leopoldo, MG · (31) 98566-7466 · dgprimeweb@gmail.com · linkedin.com/in/gtvnv · github.com/Gtvnv

SUMMARY

Software engineer with fullstack experience on an industrial ERP in production, and prior background in technical support and infrastructure. Outside my day job, I architect and build my own products (identity, data, academic management) focused on Clean Architecture and security by design. I'm also a karate instructor and president of Associação Ventura e Vianna, a partner of the school where AKPL was born.

TECHNICAL SKILLS

Languages & Frameworks: Java (Spring Boot, Spring Security), C# / .NET, JavaScript / TypeScript (Next.js, Angular, Ionic), Python, SQL
Architecture & Design: Clean Architecture, Hexagonal Architecture, DDD, SOLID, Microservices
Security & Identity: Zero Trust, OAuth2 / JWT, RBAC / ABAC, OWASP
Infrastructure & Data: Docker, PostgreSQL, MySQL, Redis, CI/CD (GitHub Actions), Git

PROFESSIONAL EXPERIENCE

Software Development Analyst — Dec 2025 — present
Agência do Japa
- Work fullstack on an industrial ERP in production (Zyntra ERP), from the frontend to complex business rules and integrations.
- Hardened the RBAC with a security-by-design focus, reducing the access surface.
- Built CRM (Concord), AI agents (Cleo, Bob and Evelyn) and digital games, such as UltraFoot.
- Diagnosed and fixed anomalies in production, sustaining availability.

Sustaining Developer — Jul 2026 — present
Rumo Soluções
- Developed and maintained C# and .NET applications, structuring APIs and business rules.
- Developed financial applications and web-scraping bots used in pricing systems for rental companies and dealerships.
- Built web and mobile interfaces with Angular and Ionic, focused on usability.

President — 2025 — present
Associação Ventura e Vianna
- I preside over the association, working in social aid, and I am a karate instructor.
- Two laws approved by the Pedro Leopoldo city government: karate as cultural heritage, and more physical education teachers in the early grades, relieving classroom teachers.

IT Support Technician — Feb 2025 — Jul 2026
R2 Internet
- Diagnosed and resolved logic failures in systems and networks, with root-cause analysis of production incidents, isolating architecture bugs from environment failures.
- Built a Python prototype to safely automate departmental tasks.

Warehouse Clerk · *Grupo CMD* — Apr 2024 — Feb 2025

Maintenance Technician · *Turrek Informática* — Jun 2023 — Mar 2024

PERSONAL PROJECTS

AKPL — Academic Management Platform — *Next.js 15 · TypeScript · Prisma · PostgreSQL*
A system with 6 access profiles covering enrollment, teacher gradebook, batch tuition billing, and a public site. A live deployment is running for a real school.
https://karatepl.zyntraerp.com.br

Vertex — Internal Developer Platform — *Go · Hexagonal Architecture · IaC (Pulumi)*
Generates a ready-to-run Go microservice (Hexagonal Architecture) from a YAML spec. A local AI proposes code; a deterministic validator decides.

AegisProtocol — Zero Trust Identity Middleware — *Java 21 · JWT · Redis*
A homegrown Identity Provider: tokens signed with RSA-2048, distributed revocation, and granular access policies (RBAC/ABAC).
https://github.com/Gtvnv/AegisProtocol-Core

EDUCATION

MBA in Financial Management and Controllership — May 2026 — Oct 2026
Descomplica Faculdade Digital

MBA in Information Security — Mar 2026 — Jun 2026
Descomplica Faculdade Digital

B.Eng. in Software Engineering — Sep 2025 — May 2028
Descomplica Faculdade Digital

Postgraduate Specialization in Computer Software Engineering — Sep 2025 — Apr 2026
Faculdade Famart

Associate Degree in Systems Analysis and Development — Feb 2023 — Aug 2025
UniCesumar
